DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see remarks, filed 12/01/2005, with respect to Claims 1-5,7,9,11-15,19, and 20 have been fully considered and are persuasive. The Rejections of claims 1-5,7,9,11-15,19, and 20 has been withdrawn.
2. Specifically addressing claim 1, and 11. Regarding claim 1, the examiner originally took the stand that the vagus nerve is part of the brain since it does in fact connect to the brain. Since reviewing the case the examiner has changed his stance and realizes that Rice's disclosure is for deep brain stimulation. Regarding claim 11 and is not anticipated by the applicants disclosure, the examiner has withdrawn the rejection since the prior art does not specifically disclose a catheter and stimulation device which would be implanted adjacent to the vagus nerve providing both electrical and chemical stimulation to affect a movement disorder to at least in part alleviate the movement disorder. Since the remaining claims are dependent upon the above their rejection has also been withdrawn.

Allowable Subject Matter

3. Claims 1-21 allowed.
4. The following is an examiner's statement of reasons for allowance: The above claims were not anticipated or obvious over the referenced prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
